

Lumesse TalentLink

Introduction

An integration with Lumesse TalentLink allows you read and write information to the ATS. You can request the HRIS and Posting APIs from Lumesse to connect to RolePoint.

Required Details

To create an integration, you require the following credentials and information:

- Username
- Password
- HRIS API Key
- Posting API Key

To set up this user:

- Use your administrator account to create the user and password
- Request the HRIS and Posting API Key from your Lumesse representative

You can use the following email template to request this information from Lumesse:

To: [support representative]

Body:

We are integrating RolePoint into our Lumesse TalentLink ATS, please can you provide us with a HRIS and Posting API Key for our account.

Thank you
